### Unit Dose Ciprofloxacin Injection USP

Bedford Laboratories now markets Ciprofloxacin Injection USP. AP rated and equivalent to Cipro I.V. by Bayer, Ciprofloxacin Injection USP is a synthetic broad-spectrum antimicrobial agent that is indicated in the prevention or treatment of infections that are proven or strongly suspected to be caused by bacteria. Bedford will supply Ciprofloxacin Injection USP as a single-dose vial in two presentations: 200 mg in a 20-mL vial and 400 mg in a 40-mL vial.

### Point-of-Use Disinfectants

STERIS's One Solution Vesphene I1st System and One Solution LpH st System point-of-use disin-

fectants include a pre-measured pouch of phenolic disinfectant (proven in cGMP pharmaceutical production) and one gallon of water for injection. The systems are double-bagged and gamma-irradiated for sterility assurance. Along with STERIS's low-temperature VHP Vaporized Hydrogen Peroxide Sterilization Systems, the disinfectants can be a valuable part of your USP <797>-compliant contamination control program.

### Program to Maximize Automation Investments

Omniceil introduces its Omnicell ProServ 1 program of professional services to help customers maximize their investment in Omnicell automation solutions. Omnicell ProServ 1 offerings include on-site consulting services and reporting services. Also, an executive dashboard, capturing

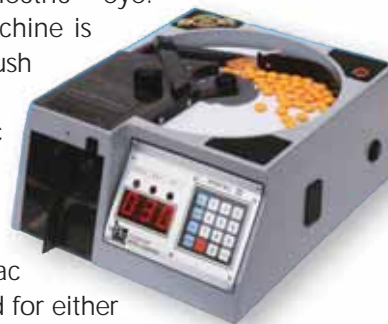

critical operational and financial metrics, is offered. In addition, available on a quarterly basis, Omnicell ProServ 1 benchmarking services enable health care facilities to compare themselves against other similar Omnicell customers on a variety of key operational and financial metrics. Omnicell also offers assistance in diagnosing and/or cleansing databases to help facilities manage their systems and secure hosted operational services, such as OmniBuyer, Omnicell's Web-based requisitioning and purchasing system.

### Electronic Prescription Counter

EPS introduces the Hispac III Electronic Prescription Counter. A simple gate adjustment allows only one tablet or capsule to pass by the machine's electric eye.

While the machine is on, a wiper brush continuously cleans Hispac III's rotating disc. With its two-drawer design, Hispac III can be used for either single or multiple counts. It can be equipped for either 110-volt or 220-volt power requirements. The machine's small footprint allows for easy transport and storage.

### Tamper-Evident Envelopes

EPS announces the 9-by-12-inch TampAlerT Security Envelope, designed to provide a maximum amount of tamper-evidence and tracking accountability. Containing a strong closure

adhesive, once sealed, TampAlerT envelopes can only be opened by cutting them. Constructed from a triple-layer extruded film, TampAlerT envelopes will immediately show visible distortion with any attempt to open them. The detachable, serially numbered, receipt stub carries a unique number also imprinted on the body of the envelope, allowing the sender, recipient, and contents to be matched, thereby improving the security of your documents or materials.

### Cart For Storing and Transporting IVs

Metro's Starsys Secure IV Cart is a flexible, secure storage and transport system for IV medications. Full extension shelves allow for IV solution bags to be stored standing upright or lying down, while providing access to the entire product. The cart's locking feature is in compliance with JCAHO's medication storage standards. A locking door provides for visual inventory while contents are secured. Constructed of durable corrosion-proof polymer panels that are easy to clean, the cart resists chipping, rusting, or denting. The 58-inch-high lighter polymer design and 5-inch casters allow for easier maneuvering.
