## From the Publisher

# Making it Easier for You to FindIt

We are pleased to announce the launch of FindIt Version 2.0, *Pharmacy Purchasing & Products'* online purchasing directory for hospital pharmacists. With an updated, cleaner design, the new site is even easier to use than the original.

By visiting [www.findit.pppmag.com](http://www.findit.pppmag.com), you will have easy access to the most comprehensive source of vendor information you can find online. With just one click, FindIt directs you to an extensive list of providers of pharmacy products and services – from controlled environment cleaning products to smart pumps to medication reconciliation software. FindIt also offers links to *PP&P* content related to each product and service class on the site. Users can easily download these articles to gain insight into product selection criteria and to gather implementation tips.

There's no longer a need to conduct time-consuming Web searches to find the products and services you need to improve your operations and increase patient safety; FindIt puts all of this vital information at your fingertips, on one convenient website.

Of course, we think FindIt is a great resource, but don't just take our word for it. Users find it valuable too. In fact, in the month of March alone, FindIt received nearly 5,000 distinct visits, and users downloaded *PP&P* articles from the site more than 860 times.

If you are among FindIt's current fans, we thank you for your continued use of this informative resource. If you haven't yet used the directory, we encourage you to visit [www.findit.pppmag.com](http://www.findit.pppmag.com) to find out what FindIt can offer you.

All the Best,

R. Mitchell Halvorsen  
Publisher

PS – Please stop by *PP&P*'s booth (#923) at the ASHP Summer Meeting to meet our staff, pick up copies of our latest issues, and give us your feedback on our publication and other products. As always, your input is invaluable to us.
