

### Products for Removing Urine Stains and Odors

Bio-Pro's Urine Odor & Stain Remover uses an enzymatic formula to break down and eliminate uric acid salt crystals to eliminate urine odor and reduce the destruction of equipment such as wheelchairs, mobility scooters, cushions, and beds. The formula is biodegradable and works on surfaces including metal, fabric,

and vinyl. Products include liquid sprays — available in 36-ounce or 1-gallon jugs — as well as wipes in 35-count canisters.

### Carpeting for Senior Living

Milliken announces a new collection of flooring products designed for senior living, with more than 2,700 patterns divided into six style families: Historic Reference, Modern Classics, Organic Motifs, Arts & Crafts, Natural Illusions, and Architectonic. The tufted, patterned, cut-pile broadloom carpets are constructed with

nylon fibers and are available in 32- and 36-ounce weights. Milliken's stain and soil resistant technology can ensure long-term appearance retention, and an antimicrobial treatment inhibits the growth of mold and mildew. The carpets are also bleach-resistant.

### Improved Bathtub Access

The Safeway Safety Step can provide easier access to bathtubs for seniors with disabilities. A step-in shower is created by cutting a section of any existing tub – fiberglass, steel, or cast iron – and custom fitting the resulting

opening with a Safeway Step. The reconfigured tub can help prevent falls and improve resident safety.

### Locks for Assisted Living Facilities

The SAFLOK InSync locks provide added security for resident suites, bedrooms, and facility common areas. The lock and its key communicate via encrypted radio frequency (RF) waves. The locks' Windows-based SAM RF software provides key control to the property manager and allows managers to invalidate old or lost keys remotely. Access records can be uploaded and used to develop a variety of reports. The latest 200 entries are stored for residential doors and 2,000 entries are stored for common area doors. One RF key can be programmed to gain access to multiple areas of a property.

### Lifting Cushion

Mangar introduces the ELK (Emergency Lifting Cushion), which raises a person from the ground with the support of a caregiver. Once the lift reaches a suitable height, the caregiver

can then assist the resident to stand or be transferred. Useful for falls in confined spaces, these lifts are compact and portable for easy transportation. It lifts up to 1,000 pounds and can be used both in- and outdoors.
